## RENT DOMOTICS

Rent Domotics enables secure and flexible room access management by authorizing selected mobile devices for a specific duration. Access permissions can be granted, modified, or revoked remotely, with automatic expiry controls ensuring security and convenience for property owners and administrators.

## DOMOTICS DESIGNER

Domotics Designer is a comprehensive planning and visualization platform for smart automation projects. It supports automation workflow design, product placement planning, wiring layouts, and interactive 2D/3D dashboards, helping streamline project design, deployment, and maintenance.
